En Route fosters **educational connections** between the **Caribbean** and the **United States**, providing youths with a unique opportunity to explore Creole identities and multicultural Americas.

Through language immersion and interaction, participants build **cultural**, **educational**, and **social connections**, gaining the tools to navigate the world with confidence, awareness, and knowledge as future global citizens.

Our carefully curated programs combine **language learning**, **cultural immersion**, and **thrilling adventures**.

The actual situation

France is well-known by educators and Americans in general and is the traditional destination.

No long-term partnerships exist between US schools and the French Caribbean region.

There are no educational travel agencies in the US that focus solely on the French Caribbean region.

Also, no many travel agencies offers authentic English language immersion experiences for the young guadeloupeans.

Therefore, we seek to establish connections with territories on the same continent that share similar cultural backgrounds.
